Headset/Microphone Installation (default)

1. During set-up you’ll be prompted with a Microphone Selection dialog box.
2. Select the USB headset and select Continue. (note: select refresh list if your connected device is not available.)
3. Follow the setup prompt and speak into the microphone.
4. Select the Audio Settings option if your microphone is not active.

Headphone Setup (Windows 7)

1. Connect your headset to the USB port on your machine.
2. Open the Start menu and click on Control Panel.
3. Select Sound (if you are in icons views) or Hardware and Sound (if you are in list view).
4. Locate the Playback tab and click on the name of your USB headset.
5. Select the Set Default button.
6. Click OK.

Adobe Flash Player Settings

Rosetta Stone requires the Adobe Flash player engine to have access to your camera/microphone. If this is your first time using Rosetta Stone please select the following options to allow resource.rosettastone.com to access your camera and microphone:

1. Select the Allow option for microphone.
2. Select the Remember option for future uses of this product.
